Spatial changes relative to zero lag
PSM L
PSM R
Task A
Distance change from zero lag (px)
Lag (s); positive = gaze leads
Task A
Proximity change (percentage points)
Lag (s); positive = gaze leads
Task C
Distance change from zero lag (px)
Lag (s); positive = gaze leads
Task C
Proximity change (percentage points)
Lag (s); positive = gaze leads
Same y scale within each column. Dots mark correlation peaks; these are descriptive changes, without confidence intervals.
